a truly unique, independent magazine written especially for users of the

TRS-80 MICROCOMPUTER

—Thrills—Education—Games—Practical Programs—Pictures—Fun—Trivia—

This magazine is the ultimate in computer magazines. You Can't Read It!! (Your computer can.) Now, for the first time, you can be assured that a program will run without "light editing" — without debugging — without even typing the stupid thing in!!

Each month, CLOAD™ magazine will arrive by First Class Mail, written entirely on a C-30 cassette. Just pop it in your TRS-80 computer and go. You can read it, modify it, run it or ignore it.

Note to collectors: This is the first magazine ever written for machines!

Note to cynics: You can always erase the cassette and record some music.
