## SPACE COLONY

A fast action "Arcade" game in the space invaders theme. Good graphics and sound effects and a very addictive quality will make this one of your favorites!

## capture SYMON

Block your opponents moving wall but don't hit anything or that's it/ Fast moving "arcade" game using graphics and sound effects. Multi-player. You'll need good reflexes and nerves of steel for this one.

SPECIAL BONUS - Also included in this package is the memory game SYMON. How good is your memory anyway/

**Manufactured & Distributed by: ADVENTURE INTERNATIONAL**

# **capture • SYMON**

## **TO LOAD ON 16K TRS-80 TAPE SYSTEM**

**\*To load your program on TRS-80 Level II 16K.**

- 1) Power up system**
- 2) Put tape in player and rewind**
- 3) Volume around 4 – 5**
- 4) Type: SYSTEM**
- 5) Type: C (for CAPTURE)**  
**S (for SYMON - first manually position**  
**tape past Capture program)**
- 6) The tape should now load with a blinking \***  
**in the upper right corner on CRT. If you get**  
**a 'C' or the \* does not appear then rewind**  
**tape, set volume to a notch higher and go**  
**back to step 1.**
- 7) Type: /**

**\*There is a duplicate copy of the Program on the  
back of the tape.**

**© Copyright 1980**

**Box 3435  
Longwood, Fla. 32750  
(305) 862-6917**

## **HOW TO OUTPUT SOUND ON YOUR TRS-80**

- 1) Load sound program into computer.
- 2) Plug mike wire from computer into "Aux" on cassette player. (This is its normal position)
- 3) Remove remote plug.
- 4) Plug in earphone or any speaker (up to Hi Fi size) into the earphone jack on the cassette recorder.
- 5) Open the cassette recorder top as if you were putting a tape in. In the left back you will see a small micro switch. If you press this switch you will also be able to press the "record" switch down at the same time. Do this now.
- 6) Press the "record" switch and the "play" switch at the same time.
- 7) You should now get sound from your earphone (or speaker).
