INTRODUCTION

This package of four cassettes contains an advanced course in Level II BASIC. It is advisable for the student to have some previous experience with computers, computer programming or to have completed Part 1 of the Level II BASIC Instruction Course. Upon completion, the student should be able to write more meaningful programs in BASIC.

Advantage is taken of the unique characteristics of the computer as a medium for learning. The student will find this computerized course to be very dynamic, interactive and self-paced. Through the use of graphics, readability and understanding are greatly enhanced. In short, we think you will find this approach to learning the more advanced features of Level II BASIC is fun!

TABLE OF CONTENTS

Lesson	Topics
Forward	-----
1	List Edit
2	Variable Types Arrays
3	Operators Commands
4	Input & Output

8	Machine Language Subprograms

PROCEDURES

1. Power-Up

Switch on the keyboard

- a) If you have an expansion interface (but no disk), you must hold down the **BREAK** key while turning on the computer.
- b) If you have a MINI-DISK, type

BASIC2

in response to DOS READY

2. The question

MEMORY SIZE?

will appear. Press the **ENTER** key.

3. Loading Cassettes

Each cassette has a different lesson on each side. Find Lesson 1 and rewind the tape, if necessary.

- a) Press "PLAY" on the recorder and set the volume to 5 or 6.
- b) Type **CLOAD** , and press the **ENTER** key.
- c) Asterisks should flash in the top corner of the screen.
- d) When READY

> _

appears, type **RUN** , and press **ENTER** .

4. Self-Paced Instruction

You control the rate at which material is presented by pressing the SPACE BAR whenever you are ready for the next sentence. The only exception occurs when the program is waiting for an answer to a question on the screen. In this case, type your answer, and press the **ENTER** key.

IMPORTANT NOTICE

ALL RADIO SHACK COMPUTER PROGRAMS ARE DISTRIBUTED ON AN "AS IS" BASIS WITHOUT WARRANTY

Radio Shack shall have no liability or responsibility to customer or any other person or entity with respect to any liability, loss or damage caused or alleged to be caused directly or indirectly by computer equipment or programs sold by Radio Shack, including but not limited to any interruption of service, loss of business or anticipatory profits or consequential damages resulting from the use or operation of such computer or computer programs.

NOTE: Good data processing procedure dictates that the user test the program, run and test sample sets of data, and run the system in parallel with the system previously in use for a period of time adequate to insure that results of operation of the computer or program are satisfactory.
